AERIAL IMAGERY SPECIFICATIONS

The aerial imagery is available in two formats: GeoTIFF tiles and compressed MrSID files. An index of the files can be found on the SanGIS Regional Data Warehouse under the GRID category (i.e. for the 2014 aerial imagery select "GRID_2017_AERIAL_xxx"). The GeoTIFF files are the original images and are 5,000 ft or 2,640 ft on a side for the 2014 and 2017 mage years respectively. The MrSID files cover much larger areas at somewhat reduced image quality.

SanGIS will extract all files that are inside of, touch or overlap the area you specify unless you tell us specifically what tiles you wish (tile names are found in the indexes referenced above).

Aerial imagery is priced as a custom data extraction. Data extractions are billed at \$100 per hour with a \$100 minimum (not including postage and media fees). Extracting individual tiles takes more time than copying the entire data set. For that reason, the entire data set, including metadata reports, MrSID compressed files, tile layout shape files, and GeoTIFF files is available on a portable 1 TB hard drive at a low fixed cost.

1. Define Map Area and/or Constraints

Parcel APN(s) or Address:	
Radius (How much area to show around the subject parcel or address):	
Bounded by: (e.g. Carlsbad city limits, Ramona community planning area or Sweetwater High School District)	
Other (list of specific tiles, detailed description of area, specific data set, "Entire County", etc):	

2. Select Data Set and File Type (check all boxes that apply)

Year/Extent	Data Set	File Type	Cost for Full County Dataset
2014 – Entire County	<input type="checkbox"/> 30 cm resolution (4 band)	<input type="checkbox"/> GeoTIFF <input type="checkbox"/> MrSID	\$250 (including media costs)
2017 – Entire County	<input type="checkbox"/> 9 in resolution (3 band)	<input type="checkbox"/> GeoTIFF <input type="checkbox"/> MrSID	\$300 (including media costs)

3. Select Media Type and Delivery Method (check all boxes that apply)

<input type="checkbox"/> US Mail \$5 - \$20 depending on media size (DVD, SSD, HDD)	<input type="checkbox"/> Pick up (no additional charge)
